

## 2 x and 3 x Facts Practise

*Remember to use your Mfacts strategies:*

● Twos Facts:  $2 \times \_ =$  Think 'double'

● Threes Facts:  $3 \times \_ =$  Think 'double, plus one more group'

$2 \times 7 = \underline{\quad}$

$5 \times 2 = \underline{\quad}$

$8 \times 2 = \underline{\quad}$

$2 \times 2 = \underline{\quad}$

$10 \times 3 = \underline{\quad}$

$2 \times 5 = \underline{\quad}$

$7 \times 3 = \underline{\quad}$

$3 \times 2 = \underline{\quad}$

$9 \times 3 = \underline{\quad}$

$1 \times 3 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$2 \times 4 = \underline{\quad}$

$3 \times 7 = \underline{\quad}$

$10 \times 2 = \underline{\quad}$

$2 \times 1 = \underline{\quad}$

$3 \times 4 = \underline{\quad}$

$3 \times 9 = \underline{\quad}$

$3 \times 12 = \underline{\quad}$

$2 \times 8 = \underline{\quad}$

$2 \times 3 = \underline{\quad}$

$12 \times 3 = \underline{\quad}$

$2 \times 10 = \underline{\quad}$

$4 \times 3 = \underline{\quad}$

$3 \times 5 = \underline{\quad}$

$6 \times 2 = \underline{\quad}$

$3 \times 3 = \underline{\quad}$

$4 \times 2 = \underline{\quad}$

$12 \times 2 = \underline{\quad}$

$3 \times 11 = \underline{\quad}$

$1 \times 2 = \underline{\quad}$

$3 \times 2 = \underline{\quad}$

$8 \times 3 = \underline{\quad}$

$3 \times 1 = \underline{\quad}$

$11 \times 3 = \underline{\quad}$

$6 \times 3 = \underline{\quad}$

$3 \times 8 = \underline{\quad}$

$3 \times 10 = \underline{\quad}$

$2 \times 3 = \underline{\quad}$

$2 \times 9 = \underline{\quad}$

$5 \times 3 = \underline{\quad}$

$8 \times 2 = \underline{\quad}$

$7 \times 3 = \underline{\quad}$
