

Grid Method Worksheet 2 digit x 2 digit

***Remember:** Grid method is a way to show the distributive property- that is, 'separating the question into easier parts'.

1) $24 \times 47 = ?$

x	40	7
20		
4		
Total		

$24 \times 47 = \underline{\hspace{2cm}}$

2) $78 \times 88 = ?$

x	80	8
70		
8		
Total		

$78 \times 88 = \underline{\hspace{2cm}}$

3) $79 \times 39 = ?$

x	30	9
70		
9		
Total		

$79 \times 39 = \underline{\hspace{2cm}}$

4) $88 \times 63 = ?$

x	60	3
80		
8		
Total		

$88 \times 63 = \underline{\hspace{2cm}}$

5) $41 \times 40 = ?$

x	40	0
40		
1		
Total		

$41 \times 40 = \underline{\hspace{2cm}}$

6) $53 \times 66 = ?$

x	60	6
50		
3		
Total		

$53 \times 66 = \underline{\hspace{2cm}}$

7) $59 \times 85 = ?$

x	80	5
50		
9		
Total		

$59 \times 85 = \underline{\hspace{2cm}}$

8) $94 \times 67 = ?$

x	60	7
90		
4		
Total		

$94 \times 67 = \underline{\hspace{2cm}}$
