

## Three in a Row

### 11s and 12s Facts

#### What you need:

- One set of 11s and 12s Fact Cards- cut up- per player
- One Game Board per player  
(both found on the same sheet, below)
- Counters

- Each player cuts up their '11s and 12s Fact Cards' and puts into a bag/container or lays them face down.
- Each player has a Game Board.
- Players take turns to pull an '11s and 12s Fact Card' out of their set. They calculate the product (answer) and if they can find their product on their game board, place a counter on it.
- If their product has already been covered, miss a turn.
- First player to get three counters in a row, in any direction, WINS!
